SWETANSH SINGH

Python & Data Science Developer

ABOUT ME

Proactive Computer Science undergraduate specializing in **Data Science**, with a strong foundation in **Python** and its data manipulation ecosystem. Adept at transforming complex datasets into actionable insights and building scalable computational solutions. Driven by a continuous learning mindset and eager to contribute technically in a fast-paced development or analytics role.

EDUCATION

NSHM Knowledge Campus – Durgapur, West Bengal
B.Tech in Computer Science & Engineering (Data Science) – CGPA: 7.37 (Sem 1–6)
[08/24 - Present]

DAV Public School – Rupnarayanpur, West Bengal
Senior Secondary (CBSE, Class XII) – 72.0%
[2021]

St. Joseph's Convent School – Chittaranjan, West Bengal
Secondary Education (ICSE, Class X) – 82.4%
[2019]

PROJECTS

Skin Cancer Detection | TensorFlow, OpenCV, Scikit-Learn | [GitHub ↗]

- Built a CNN to classify lesion images into malignant vs. benign with ROC-AUC validation.
- Preprocessed and augmented image data using OpenCV to handle class imbalances.

Sales Analysis Interactive Dashboard | Streamlit, Plotly, Pandas | [GitHub ↗]

- Deployed a real-time sales tracking web app with dynamic multi-filter KPI dashboards.
- Optimized data-caching to accelerate chart rendering and large dataset queries.

Amazon Sales Analysis & Forecasting | Pandas, Matplotlib, Seaborn | [GitHub ↗]

- Performed EDA on transaction records to isolate peak demand and margin trends.
- Cleaned raw currency data and identified root causes of courier delivery cancellations.

Netflix Content Strategy & Catalog EDA | Pandas, Seaborn, Matplotlib | [GitHub ↗]

- Analyzed catalog metadata to evaluate shifting trends between TV shows and movies.
- Visualized country-wise production volume and runtime distributions across genres.

SKILLS

Technical

- **Languages & Web**: Python, SQL, HTML/CSS
- **ML & Data Science**: Pandas, NumPy, Scikit-Learn, TensorFlow/Keras, OpenCV
- **Visualization & Apps**: Streamlit, Plotly, Seaborn, Matplotlib
- **Core Concepts**: CNNs, Computer Vision, EDA, Feature Engineering, Forecasting

Personal

- Analytical Problem-Solving
- Cross-Functional Communication
- Team Leadership
- Time Management
- Rapid Adaptability

LANGUAGES

- English – Fluent
- Hindi – Fluent
- Bengali – Proficient
